

A  Brown Bag Event

Microwave WeatherCam

Randolph "Stick" Ware

Chief Scientist – Radiometrics Corporation

Visiting Scientist – NCAR MMM

Thursday, April 24, 2008

12:00 – 1:30 pm

Unidata Conference Room – FL4 1318

A hyperspectral microwave camera reveals otherwise invisible air temperature, humidity and liquid structure, during all weather conditions. Combined with Internet browser-based control and display software, this technology is a powerful new tool for research and education.
